### ABOUT ME

It's great that you have experience in web programming and have worked with teams of different sizes. To improve your skills, you can try structured learning if you don't have any coding foundation and want to become a developer, or semi-structured learning if you simply want to learn one or two programming languages or tech stacks.

### EXPERIENCE

#### Nine month

Frontend developer vuejs nuxt-js/freelancer

I developed the admin panel of my resume website
